

IESOL/Nová Maturita Mock Exam 2010 (title)

A new concept of school leaving exam is to be implemented as of the new school year 2010/2011. Regarding the English language students who are currently in the third year will take the exam at two levels according to the CEFR: B1 and B2.

Therefore, City & Guilds representatives in the Czech Republic prepared a pilot project called **IESOL/Nová Maturita Mock Exam 2010** in which **35** secondary schools from the whole Czech Republic were registered and approximately **2 100 students** tested between January to May. The tested students were given a chance to find whether they are at B1, B2 level according to the European standards and took IESOL Achiever and Communicator written exam consisting of three exam parts: Listening, Reading and Writing. Furthermore, most students could take an international exam for the first time albeit a mock version.

The tests were assessed by independent assessors who provided the teachers and students with detailed and structured feedback on their performance. Moreover, the assessor of the free writing part prepared a list of common mistakes that appeared in their students' work for each school. The students who received the First Class Pass (FCP), the name list below, at both levels got a small prize.

To sum up, City & Guilds representatives received positive feedback from the teachers and schools on the organization of the project and the quality and speed of delivering results.

We hope students and their teachers can benefit from the provided feedback and experience.
